I never questioned how my town (that I love) became what it is today. I am proud that Cory Booker hails from Harrington Park! (I did not know that his family had to buy their home in our town using subterfuge!) I did not realize that it, like most of the Bergen County towns, was socially engineered as part of systematic **Redlining**.

Lynne Algrant opened my eyes when I attended her presentation on Redlining in Bergen County. Please come to this fascinating presentation which reveals how social inequality and systemic injustice negatively impacted both Blacks and White immigrant families **in our County!**
